PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIC (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1A

25X1A

Balakleya Ammunition Depot NE [REDACTED] is located on the northeast edge of Balakleya. Balakleya Army Barracks NE (BE [REDACTED]) which probably provides support for the depot, is located adjacent to the southwest edge of the depot (Figure 1).

The depot and barracks area cover approximately 1,150 acres. The depot, which is double secured, contains 48 revetted and 35 unrevetted ammunition storage buildings, 10 support buildings, and a possible ammunition fabrication facility consisting of 6 probable light fabrication buildings, 5 road-to-rail transloading buildings and 3 support buildings.

The barracks area, which is possibly secured by a fence, contains 1 multistory L-shaped administration building, 2 large multistory U-shaped barracks, 3 small multistory U-shaped barracks, 13 probable quarters, 27 general storage buildings, 2 possible vehicle sheds, 12 support buildings, and 12 possible small vertical POL tanks.

The area is covered by [REDACTED] TALENT photography and [REDACTED] KEYHOLE missions between [REDACTED]. The installation appears active on all photography with no changes in facilities observed.

25X1D 25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

A spur extending from the Kharkov-Lugansk double-track rail line serves the installation. The spur splits and forms 8 sidings, thereby servicing the majority of the buildings.

Road Service

The installation is served by a secondary road extending from the Andreyevka Pervaya-Izyum highway.

Administrative and Troop Housing Area

Area D contains 2 large multistory U-shaped barracks, 3 small multistory U-shaped barracks, 1 multistory L-shaped administration building and 5 support buildings. This area is known as Balakleya Army Barracks Northeast and is probably a support facility for the depot.

General Storage Area

Area E contains 27 general storage and 3 support buildings. The area is possibly secured by a fence on 3 sides and a wall on the west side.

Ammunition Storage Area

Area F contains 48 revetted and 35 unrevetted ammunition storage buildings and 10 support buildings. All but 4 unrevetted and 10 revetted ammunition storage buildings are directly rail served. Three of the support buildings are probably guard towers. The area is double secured.

POL Storage Area

Area G contains 12 possible small vertical tanks.

Other Buildings and Facilities

Area H1 contains 5 transloading buildings, 6 probable light fabrication buildings, and 3 support buildings. This is a possible ammunition fabrication facility.

Area H2 contains 13 probable quarters and 4 support buildings and is a probable billeting facility for the possible ammunition fabrication facility.

Equipment Storage/Maintenance Area

Area J contains two 150- by 35-foot possible vehicle sheds.

Athletic Field

Area K is an athletic field.
